

We have 20+ years experience in digital marketing and app development. With over 2000 domains sold and more than 130 projects launched, you can rely on our experience.

We seek strategic partnerships with blockchain projects that align with our mission. The industry has become inundated with hype and short sighted investors, and it can be hard for quality

projects to gain exposure through all the fog. That's where we come in. We have a proven track record of increasing traffic organically for over 130 projects we've built and launched ourselves. Our partners can leverage this experience to attract quality investors that are behind the values and mission of the project. This year there will be over 800 project launches accumulating upwards of \$20 billion in funding from investors. Our mission is helping right projects succeed.

Year over Year Industry Growth

	# of ICOs	Total \$USD Invested
2017 Total	345	\$5.4B
Q1 2018 Total	203	\$6.3B
